## **DETAILED ACTION**

### **Continued Examination Under 37 CFR 1.114**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 27, 2003 has been entered.

### **Claim Objections**

2. Claim 6 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 4 requires that the gap be filled with a compliant clear film. It does not further limit this claim to recite, as claim 6 does, that the gap is filled with air.

3. Claim 15 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 4 requires that the gap be filled with a compliant clear film. It does not further limit this claim to repeat, as claim 15 does, this requirement.

4. It is accepted that claims 16, 18, and 19 further limit claim 4 and are hereinbelow treated as if dependent on claim 4 rather than claim 15.

### **Response to Submission(s)**

5. Applicant's arguments filed June 27, 2003 have been fully considered but they are not persuasive.

The repetitious, rote denial that the combinations are proper continues to be unimpressive. The clear lack of understanding regarding the application of the references (for example, continuing to suggest that Hoffman *et al.* is cited "for its teaching of a flexible cable") renders the argument unpersuasive.

### **Allowable Subject Matter**

6. Claims 4, 16, 18, 19, 5, 7, 8, 11-14, 24, 22, and 25 are allowed.
7. The following is a statement of reasons for the indication of allowable subject matter: upon reconsideration in view of the amendments to independent claims 4, 5, 7, and 24, the suggestion of Schafer *et al.* that the region between a scintillator crystal and a corresponding photodiode be "preferably filled with an optically transmissive medium" (column 8, lines 30-31) is inadequate to motivate the specific degree of conformance of the compliant clear film to one of the arrays recited.

### **Conclusion**

8. This application is in condition for allowance except for the following formal matters: objections to the claims as set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
